Official Organ of The Fishermen's Protective Union of Newfoundland

Vol. VII., No. 52

THE EVENING ADVOCATE ST. JOHN'S, NEWFOUNDLAND, FRIDAY, MARCH 5, 1920

PRICE ONE CENT.

## SEALERS' ATTENTION

A Sealers' Meeting Under the Auspices of the F. P. U. Will be Held in the C. C. C. Hall (Mechanic's Building) on TUESDAY NIGHT, MARCH 9th, Meeting Opens at 8 o'clock. Speakers, Hon. R. A. Squires, Prime Minister Hon. W. R. Warren, Min. of Justice, Hon. Dr. Barnes, Min. Education, Hon. Dr. Campbell, Min. of Agriculture, W. B. Jennings, Esq, Min. Public Works, R. Hibbs, Esq M.H.A., and others. All Sealers are Welcome.

W. W. HALFYARD, Vice President, F. P. U.

### ALLIED FOREIGN MINISTERS MEET

LONDON, March 4.—The Allied Foreign Ministers met today at the Foreign Office to discuss the details of the treaty with Turkey. Premier Lloyd George attended the meeting for a time. After a short session the conference was adjourned until later in the day.

### THE SHANTUNG RESERVATION

WASHINGTON, Mar. 4.—The Shantung reservation to the Peace Treaty as modified in the Bipartisan compromise conference was re-adopted today by the Senate. The vote was forty-eight to twenty-one as compared to a vote of fifty-three to forty-one when the reservation first was adopted in November last.

### SOULLESS BEAST

The Beamans had just had their first quarrel and the bride sobbed softly to herself as the male brute whistled the air of a popular tune. "Don't you think," asked the fair young thing plaintively, "that a husband should occasionally tell his wife that she's beautiful?"

### THE TURKEY IS PLUCKED

#### THE TURKEY IS PLUCKED

LONDON, March 4.—Turkey is stripped of virtually all her territory in Europe but retains the sacred places by the treaty now being completed by Conference of Foreign Ministers and Ambassadors it became known to-day. Thrace has been awarded to Greece by the Peace Conference but the present Conference is charged with the task of working out plans whereby the Turks will keep control of sacred places. Adrianople and Smyrna will be placed under Greek control.

#### TURKISH CABINET RESIGNS

CONSTANTINOPLE, March 4.—In view of the gravity of the situation the Cabinet resigned today. The Sultan has called upon Marshal Ismet Pasha to form a new cabinet.

"No!" replied the soulless beast. "It's wholly superfluous! If she is beautiful, she knows she is, and if she isn't beautiful she thinks she is."

Drandy was at first used medicinally and miraculously cures were ascribed to its use.

### UNCLE SAM'S BOYS REVEL IN SPORT AT QUEBEC

Bluejackets of the United States Navy revel in a diversion of the North at the Heights of Quebec, where Montgomery fell in the early days of the war for independence.

### FOUR LIVES LOST IN FIRE

WINNIPEG, March 5.—Word has just reached the city of a tragic fire, six miles north of Cartwright, Man., on Friday last, whereby four lives were lost. As C. W. Brogden was lighting a fire with coal oil, the can exploded and in the conflagration resulting, his wife and three of his children were burned. After a terrible struggle the man was able to back after its use. It makes you rescue four other small children in the house. The others were trapped upstairs where the mother was incapacitated by illness from helping the little ones or herself.

#### CANADIAN APPOINTMENTS

OTTAWA, March 4.—Major W. B. V. Hooper, a returned soldier of Charlotte Place, Ontario, is appointed Postmaster at that place. In the recent bulletin from the Civil Service Commission, Lewis V. Robertson, returned soldier, is appointed Postmaster at Shelburne, N.S.

### FORTIFY YOURSELF AGAINST THE LONG SPRING

By taking a good tonic, McMurdo's Nutritive Hypophosphites in such a tonic. The Hypophosphites strengthen the nerves, help the appetite, put iron into the blood, prevent coughs and colds. McMurdo's Hypophosphites in children were burned. After a terrible struggle the man was able to back after its use. It makes you rescue four other small children in the house. The others were trapped upstairs where the mother was incapacitated by illness from helping the little ones or herself.

For a lock of Napoleon's hair \$100 was paid at Sotheby's auction rooms, London.

### Alcohol Fuel of The Future

The fuel of the future seems likely to be alcohol. And the very near future at that.

As Prof. Alexander Graham Bell said the other day, "No sooner has King Alcohol gone out of the back door as a beverage than he enters the front door in triumph as a fuel."

Important beginnings in this direction have already been made. Experimental alcohol engines have been built, and have proved highly satisfactory. Automobiles can be run by alcohol perfectly well, with slight modification of their machinery.

Alcohol is an ideal fuel. Its combustion is perfect, and it is therefore smokeless. In burning it resolves itself into water and carbonic acid, exactly as it does when chemically consumed in the human body.

Before long all our warships will be driven by alcohol, which will take the place of fuel oil, just as the latter has replaced coal. Already experimental alcohol engines have been constructed for naval vessels.

It is equally certain that all merchant steamships will be propelled by alcohol. The convenience thus to be gained is obvious, as well as the economy. For naval and commercial use, fuel stations are scattered all over the world. Their supplies of coal or oil are fetched usually from great distances, and at such expense that the prices charged are extremely high.

How different it will be when alcohol takes the place of oil and coal. It can be made on the spot, from raw materials right at hand or can at least be manufactured somewhere not very far away. At every port it will be stored in huge tanks, and an arriving ship wanting fuel, will need only a connecting to fill up.

Alcohol will go steadily down in price as methods of making it are improved. Already it is sold in Cuba at eight cents a gallon. In tropical countries it can be produced with special cheapness because of their luxuriant vegetation. Anything of a vegetable nature can be made to yield alcohol.

In our own country alcohol will become one of the most important farm products. A still with a capacity of hundreds of gallons a day can be built for \$500, the apparatus being so simple that alcohol can be returned out as easily as cider from a cider press.

One such plant will consume all the farm waste within a radius of a couple of miles—cornstalks and corn cobs, frost-bitten potatoes, rotten apples, etc. It may even handle all the neighborhood garbage. Laws will require the admixture of a certain percentage of a 'denaturing' agent.

### THE COMPLETE HOUSEKEEPER

By EMILY HOLT.

This Book contains over 1000 helps for the modern Housewife, and is an indispensable to the older Housekeeper as to the woman of little experience.

The Housewife who acquires the knowledge contained in this book, will manage her home more economically and more efficiently.

Order a Copy at Once. Only \$2.50, post paid.

Our Prices Are Right.

**R. Templeton**

Professor Bell says: "The world's annual consumption of coal and oil is so enormous that the distance of the end of the supply." As for its utilization for power, it is simply a matter of suitably modifying machinery. Oil will steadily advance in price, as well as coal, and thus inevitably must soon arrive the dawning of the age of alcohol.

### Meat Prices Take Very Heavy Slump

CHICAGO, Ills., Feb. 17.—The statement that the export trade of the American Meat Packers, the largest single industry in the United States, has practically ceased as a result of the foreign trade situation was made in a bulletin issued yesterday by the institute of American meat packers. Beef exports ceased some time ago, and during the past month pork exports have also dried up.

In explanation the bulletin says Great Britain has several months supply on hand, while other European countries, for exchange and other reasons will buy no meat from this side of the Atlantic. The result of the export decline has been a substantial reduction in the wholesale price of meat, but this does not seem to have filtered down to the retailer as yet.

In the Chicago yard steers sold for \$11.50 to \$12.50 per cwt. last Saturday as against \$20.00 a year ago. Other meat prices show corresponding decreases.

### Random Remarks

Hunger and thirst are the way to heaven.—Lord Fisher.

I like enthusiastic people: I hate stodgy ones.—Rev. F. H. Gillingham.

It is well for a nation to be humble-minded, but not too humble.

—Rt. Hon. Herbert Samuel.

One-third of the population of London goes to a theatre every night.—Mr. Norman Macdonald.

Fame is not always a question of merit; sometimes it is a question of very long hair.—Mr. Cyril Scott.

Most of the intellect of the world proceeds from the minds of the middle class.—Rt. Hon. H. A. L. Fisher.

My motto in life has always been: "Strive to be useful." Why? Because I consider it expresses my duty. As long as I am here I shall strive to help others, to do all I can for others.

—Rt. Hon. Will Crooks, M.P.

Suet puddings cannot be over-cooked. The longer they are steamed or boiled the easier they will be to digest.

### Red Cross Line

The S. S. "ROSALIND" will probably sail from New York on February 21st, and from St. John's on March 4th. This steamer has excellent accommodation and carries both first and second class passengers. For passage fares, freight rates, etc., apply to

**Harvey & Co., Ltd.**  
AGENTS.

### Sealing Crews

Crews for Sealing Steamers will be signed as follows:—

S. S. "EAGLE" Friday, March 5th.  
S. S. "RANGER" Saturday, March 6th.  
S. S. "VIKING" Saturday, March 6th.  
S. S. "TERRA NOVA" Monday, March 8th.

A Medical Health Officer will be present to examine all persons before signing. No person will be signed who has been ill recently, or not showing successful vaccination marks.

**BOWRING BROTHERS Limited.**

### NOTICE TO SEALERS.

Sealing crews for the following ships will be signed on the dates named:—

S. S. "THETIS" Friday, March 5th.  
S. S. "NEPTUNE" Saturday, March 6th.  
No person will be signed on Articles unless he can produce satisfactory proof to the ship's Doctor that he has been successfully vaccinated.

## Enormous Demand For Dominion Steel Products Corporation Cannot Fill Orders

That the demand for Dominion Steel products in the European market is far in excess of the supply available at present, and that notwithstanding adverse exchange conditions, European buyers are actually swamping the Dominion Steel Corporation with orders, were two statements made to The Post last evening by J. P. McNaughton, sales agent for the Dominion Steel Corporation.

"The foreign trade, in so far as steel products are concerned, is exceptional," said Mr. McNaughton, "and the trouble is not in getting the orders. It is filling them. We cannot get enough steel to satisfy customers. The demand for our products has been steadily increasing during the past few months and despite the con-

ditions on the exchange markets we have been kept busy supplying the orders that have come to us from Europe."

### Buying Every Product of Steel Plant

Mr. McNaughton pointed out that naturally the adverse rate of exchange would mitigate against the exportation of steel in steel, but apparently the demand for steel products is so great in Europe that the material must be had no matter what the cost. The greatest purchaser from the Dominion Steel Corporation in Europe is Great Britain, although a number of large orders have been sent to Belgium. There is no special product being bought by the European firms, in fact every product of the plant is being shipped across the Atlantic, in

quantities that have surprised even the most optimistic officials of the Steel Company.

While the exchange rate has in some measure affected a certain phase of the export trade, there is another factor that has proven of untold value to the Dominion people. Coal strikes and steel strikes in the United States have impaired production of steel in that country to a marked degree and as a result the European firms have been compelled to switch many of their orders from the United States steel plants to the Dominion firms. So much so, in fact, that more orders than would naturally be expected from Europe have been received here with the result that the steel plant is assured of steady work for some time to come.

### Strengthen Sydney's Industrial Position

The receipt of these large European orders concurrent with the opening of the new ship's plate mill in Sydney is just another indication that Sydney's present position as the

premier industrial centre of Canada is all the more secure. It is also significant that the amicable relations, at present existing between the Dominion Steel and Dominion Coal Companies with their employees, has no small measure been responsible for many of these orders being shifted from the steel mills of the United States to the steel plant in Sydney. While production in the United States has been hampered to an enormous extent by labor difficulties and strikes, the mines and the plant in Cape Breton have been working and what ever difficulties that exist between the employer and the employees have been settled by arbitration and conciliation, without labor having been required to resort to the old time strike weapon.

### Canadian Steel Trade Remarkably Good

Mr. McNaughton's statements will be welcomed by the people of Cape Breton, and coming as they do from such a responsible official of the steel company will have all the more

weight. Mr. McNaughton is no doubt responsible, to a certain extent, for many of the large European orders, because he was one of the party of Dominion Steel officials who not so many weeks ago, visited Europe and there laid before business men of that country the possibilities of greater trade relations between Canada and Europe in steel products.

With the advent, too, of British capital into the Dominion Steel Company, it is expected that this European trade will continue to expand, as many of the British capitalists who have recently secured interests in the Dominion Steel are prominently identified with shipping industries in the Old Country and may thus open up an export trade in ship's plates.

While Mr. McNaughton was very optimistic regarding the foreign trade he also let it be known that the Dominion Steel products are finding a ready market at home, and declared to The Post that Canadian trade was remarkably good.—(Sydney Post.)

## HELPS FOR THE HOME NURSE

By ISABELLA GRIFFITH, R.N.

### Hot Foot Baths

**H**OT FOOT BATHS are usually given to relieve the feet. A great many people take them to relieve colds, headache or for insomnia (sleeplessness). They should be given as hot as possible, always being careful not to burn the patient. If the patient is able to sit in a chair see that she is well wrapped; cover both patient and foot tub with a blanket. Begin with the water at about 105 degrees and increase the temperature by adding hotter water, being careful not to pour it on the feet or ankles. If desired add mustard, one tablespoonful to the gallon of water. Make the mustard into a paste thin enough to pour, add it to the water and stir well. The bath may last from 10 to 20 minutes. When it is finished the patient should go to bed immediately and not be allowed to wander about the room getting herself chilled.

A foot bath may be given to a patient in bed, though less conveniently. Bring to the bedside a towel, a blanket, a tub filled with water and something to protect the bed; a square of rubber or oilcloth is good, but a heavy bath towel, an old blanket or several thickness of clean newspaper may be used. Loosen the upper covers at the foot of the bed, fold them back as far as the patient's knees, and place the extra blanket over the feet and knees, drawing it up so that it overlaps the bed covers. Flex the patient's knees, place the bed protector under the feet, then with one hand raise the feet, and with the other slide the tub into place. Lower the feet slowly into the water, tuck the blanket closely around the legs and the tub, and continue as before.

If the patient is able to be moved the bath may be given by kneeling her across the bed and allowing her feet to rest in a tub of water placed on a chair. To do this the nurse would proceed in the same manner as if she were giving the bath in the bed.

When giving a hot foot bath use a deep tub, so that the water will reach well up on the legs, to the knees is desirable. After the bath the feet and legs should be dried without rubbing.

### Questions And Answers

H. O. writes: Since I have had alcohol, have a little patience and your hair will come in all right.

L. M. asks: Is it a good thing to gargle the dishes on a patient's tray?

Answer: Elaborate gargling should be avoided, but a touch of green is good. Anything that is pleasing to the eye or will help to divert the patient's thoughts from herself is good. Often an up-coming from a magazine laid on the tray will add zest to the meal. Brine in every way to have the best look of salicylic acid to one-half pint of

Questions of general interest relating to Home Nursing will be answered in this column, space permitting. Address Isabella Griffith, care this office.

A clergyman who had failed to gain the confidence of his flock was giving his farewell sermon. He started:

"My dear friends, it is clear God does not love you, for I have not buried any of you. It is equally clear you do not love one another, for I have not married any of you. It is painfully clear that you do not love me, for you

have not paid me my last quarter's salary. I shall, however, be independent of you in the future, as I go to take the position of chaplain at a convict prison."

He then gave out his text: "I go to prepare a place for you."

**JUMBLED BIRDS**

BY WALTER WELLMAN

Mr. Rooster is wondering what birds are represented by the four lines on the fence. If he will re-arrange the letters to be found on each line, he will be able to make out four well-known birds. What are they?

Answer to yesterday's puzzle: There are eighteen, as follows: Chester, Charles, Elmer, Vernon, Ralph, Cyril, Harold, Leroy, Fred, Silas, Irving, George, David, Otis, Eli, Ira, Frank, John.

**M. C. L. I.**

The subject for debate last evening at the Methodist College Literary Institute was "Resolved that the Principle of uniform wages as recognized by the various unions is unjustifiable." The leaders for the affirmative were Messrs. Wm. Drover and G. Gushue; for the negative, Messrs. R. A. Templeton, W. Moore and W. Knight. The arguments for the affirmative were well presented and showed a close study of the subject. An endeavour was made to prove that the principle of uniform wages contributes very largely to the unsettled state of the world today. It has been the means of imposing a financial burden on a helpless public because employers have to pay as much for inferior as for superior work. The principle is destructive to the industrious, thrifty workman who is reduced to the level of the careless and indifferent workman. The affirmative made it clear that it was not hostile to unionism as a principle, but rather looked with dismay upon the application of uniformity in wages which was eating as a cancer into the vitals of unionism. The application of a minimum wage was considered by the affirmative as more calculated to bring about better conditions for labor and greater fairness to the public than the principle in question.

The negative argued that the position of labor in the industrial world makes uniformity in wages essential to the well-being of the worker. It was pointed out that unions do not apply this principle without discretion but rather put a fair classification on labor and discriminate between unskilled and skilled labor and also classify various degrees of skilled labor. Uniformity is a principle applying to every avenue of life and that money paid does not destroy the efficiency of man. Except for its application a great hardship would be enforced on older men who have borne the burden and heat of the day. If there was not the protection of such uniformity, men in advanced age would not get a living wage, because of the fact that their producing power was lessened. The debate was well maintained and much useful information was brought out. The vote went in favor of the affirmative. The subject next week is: Resolved: "That a System of Education along the lines of Commercial Training would be more adaptable to the needs of our young people than the system of Higher Education now in vogue."

**HR. GRACIAN MAKES GOOD**

The Captain of the Montcalm, the largest and most powerful ice breaker in the service of the Canadian Government, is Captain J. Hearn, of Bryant's Cove, Hr. Grace. He was formerly in other ice breakers including the "Arranmore", and owing to his experience and excellent record, was transferred to the command of this fine boat. His saving of the Arranmore late last Fall was a smart piece of work, which was highly appreciated. Capt. Hearn is popular with the public and the Canadian marine authorities.

**Seals In Conception Bay**

The tug Ingraham while steaming up and down Conception Bay yesterday passed through hundreds of bed-lamer seals. This is a good sign, and men who profess to know, take it as an augury of a successful seal fishery.

READ THE ADVOCATE

**CITY COUNCIL WEEKLY MEETING**

Yesterday afternoon the regular weekly meeting of the City Council took place, all the members being present, including Deputy Mayor Morris, who, after a lengthy trip abroad, received a cordial welcome home from his fellow Councillors.

A letter was read from the St. John's Abattoir Co. Ltd., per Campbell and MacKay, to the effect they had recently incorporated a Company for the purpose of erecting a modern Abattoir in the city. The site is on Water Street, immediately west of the Standard Mfg. Co.'s premises. They asked for the Council's approval. After considering the matter, the Council approved of the proposal and when the plans are submitted they will be discussed with favor.

Tobias Verge wrote that owing to sickness and death in his family he could not proceed with his building on Franklin Avenue.

H. Dawe, 65 Penneywell Road, again wrote as to the ash dump in that section. Mr. Dawe is to be informed that it is nothing new to have a dump in that locality. It has been there for many years, and from information received nothing has happened to show that it was a nuisance. Meantime the City Engineer will investigate the place.

E. N. White wrote as to the condition of the South Side Road. The matter is to be looked into.

Capt. H. A. Anderson wrote it was proposed to erect a Celtic Cross in the city in memory of the officers and men of the Royal Newfoundland Regiment who fell in the late war. It was a gift from the officers and non-commissioned officers of the second battalion Royal Newfoundland Regiment. Cost will be about \$1500.00. They wanted a site from the City Council. They suggested the open space at the foot of Garrison Hill. The meeting approved of this suggestion and if the site suggested were suitable, Capt. H. A. Anderson could have it.

Plan of alterations to be made to the store of Philip Murphy, Water Street, as submitted by J. C. Barter, was approved.

Reports were read from the Solicitor on the ownership of the property at Fort William, which, he held, belonged to the Imperial authorities. The only parties who could apply to the Supreme Court for declaration of title would be the Reid Nfd. Co., the Imperial authorities, and, possibly, the Government. Ordered the Colonial Secretary be written on the matter.

The Solicitor also reported that in the case against the Reid Co., for road repairs, Mr. Conroy, solicitor for the Co., made motion for the appointment of a commission to take evidence in Montreal and Toronto.

Decided to order new plates or numbers for motor cars this season.

C. Wiseman's tender for house Quidi Vidi Road, was accepted.

Report of the City Engineer on the fire on Water Street and the water pressure, as well as the work on roads and water and sewerage departments was read.

The Health Officer's weekly report was also submitted, after which the meeting adjourned.

**Thetis Disabled**

The Thetis which went north to pick up sealing crews, has arrived at Trinity with her crank shaft broken. The Terra Nova went to her assistance last evening.

**SHIPPING NOTES**

Schr. Gladys Street has sailed from Hr. Grace with a cargo of codfish for Gibraltar.

The Diana which went to Louisburg for her sealing coal is expected to leave for here to-night.

The s.s. Clyde sails for Trinity and Catalina to-morrow morning, taking a full freight and a number of passengers.

Two of the members of the crew of the schr. Marjorie Mahaffey were found to be suffering from "flu" yesterday and were removed to hospital.

The schooner Miriam H. Captain Doyle, will shortly start loading codfish from the Monroe Export Co. for market.

The schr. Norma Strong arrived at Barbados yesterday from Leghorn, after a stormy passage, and will load molasses for St. John's.

The s.s. Suva sails to-day at 5 p.m. going up the Southern Shore as far as Trepassay, and making various ports of call right along. She takes a full freight and several passengers.

The Sagona had not been heard of leaving Louisburg up to noon to-day, but it is believed has done so, coming to St. John's via Port aux Basques. The Meigle for Placentia with a coal cargo should leave Louisburg this afternoon.

Neptune gets only a thousandth as much light and heat from the sun as does the earth.

**YOUNGSTERS!**

Need "Cascarets" when Sick, Bilious, Constipated.

When your child is bilious, constipated, sick or full of cold; when the little tongue is coated, breath bad and stomach sour, get a box of Cascarets and straighten the little one right up. Children gladly take this harmless candy cathartic and it cleanses the little liver and bowels without griping. Cascarets contain no calomel or dangerous drugs and can be depended upon to move the sour bile, gases and indigestible waste right out of the bowels. Best family cathartic because it never cramps, sickens or causes inconvenience.

**Homely Hints**

Oddments of nutmeg, tied in a small piece of muslin, can be used to Barbados yesterday from Leghorn, after a stormy passage, and will load molasses for St. John's.

Milk that is turned may be rendered fit for use by stirring in a little baking-soda.

Thoroughly warm the knife-board and a brilliant polish will be quickly obtained.

To ensure a good gloss on starched collars, first mix the starch with cold water, add a tiny lump of butter, and then pour on the boiling water.

When beating whites of eggs see that the beater is dry and clean. Add a pinch of salt to the whites; this makes them froth up very quickly.

**Grocers' Headquarters**

ST. JOHN'S, NEWFOUNDLAND, FRIDAY, MARCH 5th, 1920.

## HURT HIS FEELINGS

In yesterday's issue, The Telegram editor endeavoured to excuse The Telegram's pet hobby, viz., the publication of confidential letters. He appears much perturbed over the fact that the Hon. W. F. Coaker, President of the Fishermen's Protective Union, an organization of 25,000 fishermen, is Minister of Marine and Fisheries and represents Newfoundland in foreign markets, and he howls like a whipped urchin over The Advocate's reminder that he was "snowed under" in the District of Burgeo and La Poile.

It can readily be calculated how much a reference to Mr. James, experience with the Burgeo fishermen hurts The Telegram editor, especially when we consider the extent of the defeat administered to him by the men who knew him. Yet, really, the great leader, who was going to take a thousand sons of Burgeo across the seas to wipe up the Irish, should not be annoyed or ruffled over his November defeat, which he would now have the public believe a very "insignificant" event. It may have been so; at least, our latest "fish" authority got a very "insignificant" vote; in very deed.

Cheer up, Brudder Charles, The Advocate didn't mean to hurt your tender feelings too much. When a man is down, there is no need to trample on him, is there? When a man receives such a substantial dose of medicine as that administered to the Cashinite member by Burgeo electors, there is no necessity to hand him out any more. To the contrary, credit should be forthcoming to him if he has the necessary cheek to force himself upon the public as an authority on fishery developments.

Far be it from The Advocate deliberately to ruffle the waters of Mr. James' wrath by referring to his position in the public opinion of the electors of Burgeo District. We would remind Mr. James that many a good man was defeated, and that no doubt many a better man was defeated. If Mr. James takes exception to the latter remark, we refer him to Burgeo electors.

In yesterday's issue, The Telegram editor said his political defeat "was irrelevant to the point at issue." By this we presume he meant that his defeat had nothing to do with his publication of letters marked "confidential."

The public will understand that, in the case of The Telegram editor, there is a very direct connection between a political drubbing and the publication of letters marked "confidential." The Advocate must remind The Telegram editor that the requisites necessary for a candidate to an electoral district, in this age of advanced public intelligence, must appeal to that intelligence. It does not go too far to say that the individual who can publish letters marked "confidential" (and boast about the feat) would not reasonably be expected to appeal to the intelligence of any district. And in making this statement, The Advocate understands that the electors of Burgeo and La Poile are as intelligent and observable as are found in any district in this country.

When The Telegram editor is said to have boasted he could solve the Irish problem by taking so many Burgeo electors across the "herring-pond," he assumed to have a knowledge of bravery, etc., characteristic of these good people. Is it not only reasonable that the Burgeo electors could also form a pretty accurate opinion of Brudder Charles? Is it not only natural that their opinion actuated them in their administering him such an unprecedented dose of political medicine?

The Telegram editor says that the Hon. W. F. Coaker, who is Minister of Marine and Fisheries, represents Newfoundland, "which is the most unfortunate part of it all."

The public readily understand how unfortunate it was for The Telegram and its political associates that Mr. Coaker is a political obstacle in their path. The Telegram knelt down and worshipped A. B. Morine during last summer and fall and felt honored by lending its editorial pages to its sworn political enemy, A. B. Morine was the individual who was going to wipe up W. F. Coaker, the F. P. U., and all and sundry, that is, going to do so by the help of the "pink-sheet" which, itself, declared was going to obliterate the Liberal-Reform Party generally.

It was most unfortunate they fell down on the job; very unfortunate considering the potentialities of another lease of graft and political corruption. It is no wonder that Mr. Coaker is a very bad man for forcing himself upon Bonavista Bay and defeating "Cornwall" Morine by some 2,000 votes. Mr. Coaker should have had more regard for the tender feelings of Cashin's political nominee for Burgeo.

The question occurs to us: Why is not the "fish" authority of The Telegram Minister of Marine and Fisheries? If he feels "so unfortunate" about the President of the F. P. U. having the job, he might have gone down to Bonavista Bay and faced Coaker instead of going up to Burgeo. There might have been a very remote possibility of his receiving better treatment from Bonavista Bay electors than from the electors of Burgeo.

Mr. James says as Minister of Marine and Fisheries, Mr. Coaker's

actions are open to legitimate and honest criticism. Admittedly; but does The Telegram believe that the criticism levelled at the Fish Regulations by the Tory political "spite" campaigners is either "honest" or legitimate? Is the playing of a low-down game to knife Newfoundland's chief industry, to falsely alarm Newfoundland fishermen, and generally to play the game of foreigners, honest or legitimate?

Is it "honest or legitimate" to attempt to take the bread and butter from the toilers of this country, merely out of political spite, in an effort to discredit the efforts of Mr. Coaker on behalf of these fishermen?

Honest, public opinion condemns such a sneaky behaviour. The culpable tactics of Tory oppositionists, since their November defeat, are a reflection upon the good taste and decency of the general public, and could be carried out only by those possessed with the most colossal gall and an utter disregard of their consequences to the producers.

## IN UNITY IS STRENGTH

The annual reports daily coming in from the Local Councils of the F. P. U. show, in almost every case, a very substantial increase in membership, amounting in many Councils, to an increase of 50 per cent. The F. P. U. was never in such splendid shape as at present; its Councils were never so strong; its members were never so enthusiastic, as during the last six months. If the general elections had not so clearly spoken the mind of the North, these facts would, alone, prove that the Northern fishermen are determined to "Swim with Coaker."

In the early days of the F. P. U. the fishermen's slogan was "Sink or Swim with Coaker." The slogan spoke of determination. The fishermen knew in their hearts that the principles of Unionism, which President Coaker had expounded to them were TRUTH itself, and abiding only by which could they hope to alleviate the burdens that oppressed them, and to attain a status in the country's political and commercial life, compatible with their rights as the chief producers of Terra Nova. They were, therefore, willing to go all the way with Mr. Coaker, sharing in the abuse, ridicule and misrepresentation that were levelled at their leader.

Visitors to the North, especially during the general elections, will inform us that the old spirit of Unionism had taken on a new form from its original days. It was a spirit of quieter determination and fuller confidence. There was not such a loud enthusiasm as when the Councils grew, like wildfire, over Twillingate, Fogo, Bonavista and Trinity Districts; but the stream of Unionism was flowing deeper. The fact that it flowed, in the general elections and now, more quietly was but proof that it was more irresistible in its course to the sea of accomplishment. Confidence combines with determination after eleven years of success. As a sealer said yesterday: "There is less of the 'sink' more of the 'swim' in the fishermen's slogan today."

Again, there is more sympathy from outside the F. P. U. ranks; thousands will be found who will defend Mr. Coaker and the Union just as warmly as Unionists. It is from that body that recruits are coming forward to enroll in the ranks. Most of the new membership for 1919 are young men.

The F. P. U. ideals appeal to the young manhood of Terra Nova. Our young men desire to see Terra Nova a better, happier land than their fathers had. They want to see Terra Nova blessed with more general educational facilities, more encouraged industries, and livelier form of democracy than heretofore.

With young manhood behind the F. P. U. to take the place of the hardy fathers who made the noble cause possible, with the ripening to full growth of all the branches of F. P. U. effort, no one can deny that the F. P. U. has come to stay.

The fishermen realize that "In Unity is Strength" and well may they cheer, as they cheered President Coaker during his whirlwind campaign again Morine in Bonavista District.

"LONG LIVE THE F. P. U."

## LET "DANDERINE" BEAUTIFY HAIR

Girls! Have a mass of long, thick, gleamy hair

Let "Danderine" save your hair and double its beauty. You can have lots of long, thick, strong, lustrous hair. Don't let it stay lifeless, thin, scraggly or falling. Bring back its color, vigor and vitality.

Get a 35-cent bottle of delightful "Danderine" at any drug or toilet counter to freshen your scalp; check dandruff and falling hair. Your hair needs this stimulating tonic, then its life, color, brightness and abundance will return—Hurry!

## No Need of Coal Scare

In reference to the coal situation, we are glad to announce that the U.S. (Colan and Portia are now landing cars, and the Minister of Shipping hopes to make arrangements, in spite of the many unprecedented handicaps existing this year, to cope with this situation. Consequently there is no need for alarm over the possibility of coal famine.

NEW YORK, Mar. 5—Germany is on way to a great industrial comeback, according to Colonel William Hensley, U.S.A., just returned from five months' acoustical observation in that country. He says Germany and Belgium are the only two European countries that have gone to work since the war

## GENUINE ASPIRIN HAS "BAYER CROSS"

Tablets without "Bayer Cross" are not Aspirin at all

Get genuine "Bayer Tablets of Aspirin" in a "Bayer" package, plainly marked with the safety "Bayer Cross."

Genuine "Bayer Tablets of Aspirin" are now made in America by an American Company. No German interest whatever, all rights being purchased from the United States Government.

During the war, acid imitations were sold as Aspirin in pill boxes and various other containers. The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and for Pain generally.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores. Aspirin is the trade mark (Newfoundland registration No. 7611) of Bayer Manufacturing of Monacelien, Germany, the only manufacturer of Salicylic acid. The Bayer Co., Inc., U. S. A.

WASHINGTON, Mar. 5—That money handed out to ex-service men would be simply thrown away, was the statement made yesterday before the House Ways and Means Committee, by Walter W. Burns, a former artillery captain. Burns said all demobilized men were employed and some of them had no idea or effect of a bonus on the countries outstanding bond obligations. He contended that satisfaction of having fought to defend the country was sufficient reward.

LONDON, Mar. 5—The Government has decided to buy no more tobacco from the United States, Egypt or the Philippines, says a Rome despatch to

## St. John's-Halifax Hockey

## CITY WIN AGAIN

Before a gathering of some thirteen hundred spectators, including His Excellency the Governor, Miss Harris and Capt. Hamilton, P.S., the visiting All-Veterans' went down to defeat again last night before the Citizens by a score of 6 goals to 3. At 8:30 sharp the game started with Secretary J. Tobin in charge of the whistle and the teams lining up in the following order:

The game was even faster than the previous night's, the visitors being more accustomed to the rink and showing greater play on the boards while the local's line-up was equally as strong as before. The contest was clean throughout, the penalties being imposed for only minor infringements of the rules. The Halifaxians put up a good exhibition and the general opinion was that but for the remarkable goal keeping of Hunt in the first part of the final period the result might have been different. The visitors were ahead of the locals on combination, though they had nothing to boast of in this respect, while the citizens' love of individual play was detrimental to good team work. It seemed that everyone wanted to score and as a result many opportunities to do so were missed, whilst a pass might have achieved the desired result. The only untoward incident of the game was in the second period, when the goal judge, E. Churchill, raised his handkerchief to notify the referee that the net had been moved from its regular position. The whistle was sounded and almost at the tool the All-Vets. scored in the mix-up. A goal was claimed but none was given. Some complaint arose, but was afterwards settled to the satisfaction of all. The spares for the All-Vets. were Fraser, Whelan and Martin and for the City L. Munro, Trappell and Ewing. Mr. J. M. Tobin was referee, Messrs. W. J. Martin and C. J. Ellis time-keepers, and Mr. J. I. Vinicombe penalty time-keeper. The goals were scored in the following order:

First Period  
1. Payne (City) 1/2 min.; 2. Wilkie, 1. Payne (City) 1/2 min.; 2. Wilkie (A.V.) 2 mins.; 3. Payne (City) 3 mins.; 4. Robertson (City) 15 mins.  
Second Period  
5. Payne (City) 1 min.; 6. Kilkie (A.V.) 6 mins.; 7. MacDonald (A.V.) 1 min.; 8. R. Stick (City) 15 mins.  
Third Period  
9. R. Stick (City) 16 mins.

The penalties were handed out as follows:—

First Period  
MacDonald (A.V.) 2 mins.; Canning (City) 2 mins.; Eagles (A.V.) 2 mins.; Payne (City) 2 mins.  
Second Period  
MacDonald (A.V.) 2 mins.; Goldie (A.V.) 2 mins.

Notes on the Game.  
Wilkie, Cahill and Eagles were prominent for the visitors, while R. Stick, Payne and Canning shone for the locals. Both goal-tenders put up a great exhibition. Though defeated twice the All-Vets are game for tonight's contest, which starts at 8:30. Since arriving here they have played the game in every respect, and are looked on by the local players and enthusiasts as the best kind of sports.

## OBITUARY

ELIAS WELLMAN.  
(To the Editor)

Dear Sir.—Please allow me space in your valuable paper, the Advocate, to record the death of my dear Uncle, Mr. Elias Wellman, who passed peacefully away on Monday at his home at Port Anson. He was taken with a stroke of paralysis and was taken to his home, and remained unconscious for five days, and on the sixth he was called away from this earth at the age of 65, trusting to meet him in that Heaven above. He leaves to mourn a loving wife, six sons and two daughters.

How sweet, too, to sit 'neath a fond father's smile,  
And the cares of a mother to soothe and beguile.  
Let others delight 'mid new pleasures of home.

WINIFRED WELLMAN.

## WEDDING BELLS

## LYNCH—HURLEY

A very pleasing event took place at Island Hr. on 1th inst., when Miss Janet Hurley, youngest daughter of Mr. Joseph Hurley, and Mr. Laurence Lynch, only son of Mr. and Mrs. Edward Lynch were united by bonds of matrimony at the R. C. Church, Tilting. Rev. Dr. Jones officiating. The bride was attended by Miss Isabel Mullins of Boyd's Cove, while Mr. Patrick Butte of Island Hr. supported the groom. After the ceremony the happy couple drove to the residence of the groom, where a sumptuous feast was partaken of. The young people enjoyed themselves with lots of dancing, which was kept up until the wee sma' hours of the morning while older folks enjoyed themselves with a game of cards. The bride looked charming in a dress of pale blue silk with wreath of orange blossoms and bridal veil. The bridesmaid wore a costume of brown serge. The bride was the recipient of many presents, which showed the esteem in which she was held.

The writer wishes Mr. and Mrs. Lynch many long years of wedded bliss.

## Over-Production

## Of Eggs

Government Expert Predicts Supply In Excess of Demand.

HAMILTON, Ont., Feb. 11.—A

bountiful supply of eggs in the near future was predicted by Professor Brown, chief of the poultry division of the agricultural department, Ottawa, in an address at the annual convention of the Canadian Poultry Association here to-

day. High prices had increased production, according to Prof. Brown and the supply should be soon far in excess of the demand, he said. A resolution was passed asking the government to appoint a poultry products representative

in England. The Government will be asked by the association to remove the restrictions on oleomargarine permanently.

London Life Insurance Company

Head Office—LONDON, CANADA,  
330 Duckworth Street, St. John's, Nfld."A Propos" Writes  
Common Sense Letter on  
Live Public Question

(To the Editor.)

Dear Sir.—The winter which has been an unusual and very severe one in this locality, seems now to be on its last lap, and although frost and snow has been with us severe and plenty since early in December, the people here, in common with those of other parts of our Dominion, have been badly handicapped in their usual winter work of procuring firewood, fence, and other building materials by the heavy falls of snow, before the marshes and bogs were frozen over sufficiently firm to enable paths to be put across them. We hope, however, for more favorable conditions in March, and that by spring, every one will be amply supplied. Several of our men who in former winters would be in a position to be earning a little money, now find their time fully occupied in their efforts to keep the stove going at present, and trying to secure a sufficient supply of fuel for the re-

mainder of the year.

For the first winter for some time past, regular weekly meetings have been held of the S.U.F., L.O.A. and F.P.U. Societies, thus giving every one a chance of meeting together for a few hours of recreation and discussion of the various problems incidental to the everyday life in our midst. In the carrying on the good work of relieving distress and suffering, so far as practicable, and in fostering a spirit of good fellowship in all.

Smallpox has at last made its appearance here, about half a dozen houses are under quarantine by order of the Board of Health. We hope that its progress has been definitely checked by the Board's action in the matter.

Through the energetic action of the Chairman of the Board of Education, Rev. Mr. Humphries, we were fortunate in getting all our schools supplied with teachers this year. Mr. T. M. Smith, who was at Salvage Bay last year, is now at Salvage in charge of the High School there, with an assistant. Mr. W. Gill is in charge at Salvage Bay, and Miss Arnett, with Miss Lane as assistant, is at Happy Adventure. Let us hope that the coming year will find us, and all settlements, amply provided with both teachers and scholars, so that the rising generation will not be so handicapped in fighting the battles of life as their fathers were, owing to that greatest of all misfortunes, a "lack of Education."

Now that the noise and excitement of the political battle is abated and the New Government in charge for the permanent benefit of our Island home, I often wonder if such a time as the millennium will ever come, when spears and swords shall be turned into ploughshares and pruning hooks, and nations shall not rise against nations, and shall learn war no more. When we here in our little corner of the globe with barely a quarter of a million people, can so forget ourselves ever political affairs, above all others, as to be so intolerant of the other man's opinion, and to be ready to give the black-eye to our friends and neighbors, merely because they can not see eye to eye with us. We let our anger and prejudice run away with God's greatest gift of reason, and lower ourselves below the level of the brute creation. To witness our petty squabbles, jealousies and bickerings over trivial and insignificant matters is apt to cause one to think that such a time is very, very distant, and that an alteration of our whole system of politics and industrial relations, coupled with an higher standard of elementary education, must ensue. That co-operation must, to some extent, supplant our fierce system of competition in making a living, and that a greater effort for the common welfare of all must be made both by the rulers and people before we can write ourselves as "citizens of the world" or a "universal brotherhood."

We see by the papers that Mr. Coaker has gone on an extended trip to the various fish markets of the world, and we hope that great benefits will ensue to the fishermen and trade of our country as a result of his trip. The need of some live man has long been felt for just such work as he has undertaken.

In our F.P.U. Councils the unanimous opinion is, that if some alteration is not made in the buying of fish by the merchants, disastrous results will follow, as under the present system the man who is careless or indifferent in curing his fish, gets the same price as the most careful and painstaking man. Often two or more schooners discharging fish at the same wharf with a difference of from one to three days sun in the cure is receiving the same price, thereby giving no encouragement to the man with good fish to continue his good work, but actually putting a premium on bad fish. Such conditions must not prevail or all will become indifferent, and the country will suffer severely in future.

Yours, etc.,

A PROPOS.

Salvage Bay,  
February 16th, 1920.COMPROMISE "WET"  
BILL FOR NEW JERSEY

TRENTON, N.J., Feb. 25.—Amid scenes of tumult, the New Jersey House of Assembly, on Tuesday, passed a compromise "wet" bill fixing three and a half per cent. alcohol by volume, which is declared to be slightly stronger than the 2.75 beer of war-time prohibition days, as the legal limit for beverage in New Jersey. The bill was agreed to by "wet" Democrats and "wet" Republicans, and had the sanction of Governor Edwards.

## Great Annual Sale Of Footwear

A stupendous clearance sale of Spring and Summer Footwear.

Boots and Shoes reign Supreme in this store now.

Everywhere you turn is the pile of Shoes and Boots—Boot Signs, Boot Buyers. More of the latter than anything else.

The crowds are coming in and the footwear is going.

We have hundreds and hundreds of pairs of all kinds to choose from, and every pair is marked to sell at one-half regular price.

COME NOW — TO-DAY.

One Big Clearance Price  
on Ladies' Boots.

A remarkable clearance on account of the values given.

If you are willing to save a half or more on your spring Boot needs—come to us.

Now is the chance to get your Spring or Summer Boots at way-down prices.

They run in every kind of leathers, Kid, Dongolas, Box Calf, laced or buttoned styles.

Boots full of style and snap, made by the best American manufacturers.

Note the sizes, 2, 2½, 3, 3½. Not regular prices, value to \$6.00. Note sale price,

\$2.95 pair

One Big Clearing Price  
on Mens' Boots.

These smart looking shoes will go out with a whirl.

The lines are varied, and the kinds are many.

They are the greatest line of men's Boots, at a low price, that ever saw the light of day.

For high grade leathers and finish these have no equal on the market.

Running in black blucher. All sizes. Sale price,

\$6.37 pair

MEN'S BOOT SALE --- ABOUT ONE  
DOZEN PAIRS ONLY --- \$2.69 PAIR

MEN'S BOOTS—About one dozen pairs only. At special \$2.69 pair. Every pair among this line is worth \$6.00. They are in black leather of varied kinds in bala and blucher.

This is truly another bargain offer—its not only the price in these, but the character of the Boot.

A line that will surely overtop them all. Sizes running 9, 10, 11.

Sale Price, per pair

\$2.69

SALE OF LADIES' GREY KID UPPER  
BOOTS

When women gather around they are sure to talk of Anderson's Footwear Sales.

Now we come with another line—this one has spool heel, laced bala, Grey kid upper, black lowers—All of fresh, clean stock. All sizes.

Per Pair

\$5.87

## SALE OF LADIES' SPRING SHOES

Quality, value and style—the three great and main things in these and other lines.

Everyone will certainly agree that now is the time to buy your footwear for future needs.

This applies especially to our Shoe lines—these are no old, worn out shoes that we are unloading to you—they are the pick in footwear.

Running in laced blucher, pumps, etc., etc. Sizes: 2, 2½, 3, 3½.

Values up to \$8.00 a pair. Sale price, per pair

\$2.39

SALE OF NEW SPRING WEARING  
FLESH COLOUR BOOTS FOR LADIES

The handsomest boot from the leading factories await your inspection. Boots that will justify the highest praise we can give them.

The new spool heel, laced and with invisible eyelets. Designed for women of artistic taste. An ideal for Spring. Sale price, per pair

## W. P. A. MEETS

Government House,  
St. John's,  
March 2nd, 1920

Sir:—  
As the storm of yesterday prob-  
ably accounted for the disappointing-  
ly small attendance at the meeting of  
the W.P.A. and as it certainly made  
it most difficult and sometimes impos-  
sible to follow what was said in the  
Canon Wood Hall, I am sending to  
you for publication a brief statement  
showing as the Executive understood  
it, the decisions actually arrived on  
the two important subjects of

- (1) The creation of a Trust for the  
accumulated funds of the As-  
sociation.
- (2) The future Constitution of the  
Association.

In a matter of such importance to  
the women of Newfoundland, it is  
desirable that these two matters  
should be thoroughly ventilated and  
thoroughly understood; and I should  
like to say through your columns  
that the Executive will welcome any  
suggestions as to the details of carry-  
ing out the decisions at the meeting  
which, in the circumstances, were  
left somewhat in the rough.

There is one point I should like to  
make with reference to a matter  
which was brought up sharply at the  
meeting, namely, that of the provision  
of a Recreation Hut at the San-  
itarium in Topsall Road. This matter  
was settled before I came out. I am  
aware that some members of the old  
Executive were averse to the grant,  
but the proposal was definitely passed  
at a general meeting of the Asso-  
ciation and so far bound the Execu-  
tive. If there were any members  
who had grave doubts as to the wis-  
dom of making this grant it was open  
to them to requisition a general meet-  
ing and state their views. There  
would have been no difficulty in ob-  
taining a revision of the Resolution if  
that had been the better opinion of  
the Association. It seems to me un-  
fortunate that this businesslike and  
constitutional method should not  
have been adopted instead of waiting  
for some months and then bringing  
the matter up as it was brought up at  
Monday's meeting.

Yours faithfully,  
CONSTANCE HARRIS,  
President of the W.P.A.

## STATEMENT

Two matters of importance came  
up for settlement at the meeting of  
the Women's Patriotic Association on  
Monday, the 1st inst.

The first was the question of mak-  
ing proper provision for the expendi-  
ture of the fund accumulated in the  
hands of the Treasurer at the con-  
clusion of hostilities. This fund  
could no longer be spent in the man-  
ner in which the givers intended and  
it was therefore necessary to obtain  
legal authority for disposing of it.  
This has been the case with similar  
funds in other parts of the Empire.

The first step was to create a  
proper Trust and this could only be  
done by Act of the Legislature. There-  
fore a Bill was drafted and laid be-  
fore the meeting proposing to create  
such a Trust.

The arrangements for the Trustees  
are shown in the Third Clause of the  
Bill which runs as follows:

"The remainder of the said funds  
shall forthwith be vested in Trustees  
to be called the Women's Patriotic  
Association Trustees (in this Act  
referred to as 'the Trustees' or 'the  
said Trustees') which shall consist  
of the President, the two ex-officio  
Vice-Presidents, the Secretary and  
the Treasurer of the Patriotic As-  
sociation of the Women of New-  
foundland for the time being, the  
Registrar of the Supreme Court, the  
Secretary of the Council of Higher  
Education, and two members of the  
'Great War Veterans' Association,  
one of whom shall have served as a  
sailor and the other as a soldier, to  
be elected by the Great War Veter-  
ans' Association."

The general lines of the Trust were  
shown in Clause 6 which runs as fol-  
lows:

"The said funds shall be held by  
the said Trustees in trust to be ex-  
pended (a) in meeting such ex-  
penses as the Patriotic Association

"from time to time, (b) in mak-  
ing or continuing arrangements com-  
menced in the past for providing  
material or other comforts for sail-  
ors and soldiers who have served in  
the Great War, and the wives and  
children of such sailors and soldiers  
"(b) in assisting the child or children  
of any sailor or soldier belonging to  
Newfoundland who enlisted and  
served in any of His Majesty's forces  
during the Great War and is ad-  
judged by the Trustees to be in need  
of such assistance, to attend any  
school or college in Newfoundland  
or any school, college or university  
elsewhere, (c) in assisting any child  
of any soldier or sailor as aforesaid  
in learning a trade or otherwise  
fitting him for the practical work of

"life."

As regards the objects cited in this  
Clause, an excellent letter was re-  
ceived on the eve of the meeting from  
Major Parsons of the Pension Board  
and that letter is printed as Appendix  
1 to this statement.

Another proposal had been made in  
a letter from Colonel Bernard, which  
is printed as Appendix 2 to this state-  
ment. But, as regards this it was  
pointed out by the President in open-  
ing the discussion that this was  
rather a matter for the Patriotic Fund  
and that if the meeting wished to  
carry out Colonel Bernard's intention,  
the wisest course would be to hand  
over a certain definite sum to the  
Patriotic Fund Trustees, leaving the  
remainder to be dealt with by the  
new Bill.

This point was not taken up at the  
meeting as the discussion centred it-  
self entirely upon that part of the  
Bill which it is now necessary to set  
out.

As the whole reason for the Bill  
was the absence of legal authority  
for any disposal of the fund, it was  
necessary to provide in the Bill for  
legalisation of such payments as had  
been made or pledged by general  
meetings of the Association in ignor-  
ance of their powers in the matter.

The first of these was the payment  
of \$1,000 to the Great War Veterans'  
Association about a year ago. This  
was not challenged.

The second was the payment of  
\$7,000, not yet made but understood  
to be pledged by a general meeting,  
for a Recreation Hut in connection  
with a new wing for sailors and sol-  
diers at the Tuberculosis Sanitarium  
on the Topsall Road. This proposal  
was sharply criticised at the meeting  
and there is evidently a strong body  
of feeling that it ought not to be  
passed—based apparently upon the  
belief that the number of sailors and  
soldiers at the Sanitarium will be so  
few as not to justify expenditure.  
Consequently the meeting decided that  
they would not endorse absolutely  
the sub-clause legalising this pro-  
posed payment, but that they should  
leave it to the Trustees named in the  
Bill to decide whether the matter of  
pledged faith was such that payment  
ought properly to be made and legal-  
ised.

Here the matter was left and this  
solution ought to be quite satisfac-  
tory. Notice will be given to those  
who have been responsible for the  
planning of the Recreation Hut that  
they should not proceed further until  
this matter has been duly decided.

Apart from this reservation the  
general principle of the Trust was  
completely approved.

The second business of importance  
was the future Constitution of the  
Association. This also was embodied  
in a Bill which was before the meet-  
ing. The substance of this Bill may  
be put shortly as follows:

(1) In future the Women's Patri-  
otic Association is to be an incorpo-  
rated body composed of all those wo-  
men who had taken part in work in-  
cidental to the Great War and of all  
women hereafter who, having reached  
the age of 16, enrolled themselves for  
work with the Association.

(2) The Headquarters Executive of  
the Association would in future be  
composed as follows:

The wife of the Governor, ex-  
officio President.  
The wife of the Chief Justice,  
ex-officio Vice-President.  
The wife of the Prime Minister,  
ex-officio Vice-President.  
Two Vice-Presidents, elected an-  
nually.  
A Secretary, elected annually.  
A Treasurer, elected annually.  
Two other members of the Exe-  
cutive, elected annually.

(3) Arrangements were made for  
the proper recognition and rep-  
resentation of local branches through-  
out the Colony.

The principle of this Bill was ac-  
cepted and in accordance with an in-  
formation made by the President and  
accepted by the meeting the new Exe-  
cutive was appointed at the meeting  
entirely on the above basis.

Headquarters.

Women's Patriotic Association,  
2nd March, 1920.

The Board of Pension Commissioners  
for Newfoundland.St. John's,  
March 1st, 1920.Lady Harris,  
Government House,  
City.

Dear Lady Harris:

With regard to our conversation as  
to the best method of expending the  
Fund to the best advantage to ex-  
service men or dependents of de-  
ceased men.

My opinion is that this amount  
would be best used to further educa-  
tion of a number of children, preferably or-  
phans, of men of the R. N. R. Mer-  
chant Marine, Royal Navy, Regiment  
and Forestry Corps, who have made

the Supreme Sacrifice during the  
Great War.  
Pension paid to children is \$96 per  
year, and to orphans \$192 per year.  
During the long months the Reg-  
iment should take a course of instruc-  
tion approved of by the Board of  
Pension Commissioners this allow-  
ance would be continued for a further  
three years.

These children should be given  
every possible opportunity, and any  
child who shows proficiency and is  
keen should be encouraged to con-  
tinue his or her studies. To do this,  
however, more assistance is necessary  
than is at present allowed.

In submitting this suggestion I do  
not wish it to appear as if this is the  
only way in which your Association  
should spend this money. But, I do  
feel that we would fall very short of  
our duty if we content ourselves with  
simply paying the Allowance made  
by the Government and take no fur-  
ther interest in them. They are now  
children of the Dominion and should  
be given every opportunity to make  
good.

Another suggestion is, that as some  
time soon the Patriotic Fund will  
stop paying Allowances (they have  
already done so in Canada), this  
award might be expended on deserv-  
ing cases who, under the Act, cannot  
be helped by the Board of Pension  
Commissioners.

Yours faithfully,  
(Sgd.) W. H. PARSONS.

(Copy)  
King's Bridge Road,  
February 20th, 1920.To the President  
Women's Patriotic Association  
of Newfoundland.

Madam:  
I notice that an advertisement  
which appeared in yesterday's issue  
of the daily papers calls for a meet-  
ing of the W. P. A., one of the objects  
being to elect officers, and I venture

to approach you on a subject which I  
feel sure all returned soldiers and  
sailors have very much at heart.  
During the long months the Reg-  
iment spent at the various fronts all  
ranks had occasion to be grateful to  
the women of Newfoundland for their  
very practical way of remembering  
their fighting men. Indeed, showers  
of comforts of every kind were al-  
ways at the London offices of the  
Contingent Association, ready to be  
shipped across the Channel at a mo-  
ment's notice, and I do not remember  
a single occasion when the men of the  
Regiment were not amply supplied  
with those things which just made  
the difference between real comfort  
and comparative misery.

For that reason, and because the  
war-time W. P. A., as such, may not  
continue to exist much longer, I  
should like to thank the Executive  
Committee, and through them all the  
women of the Dominion, for their  
unfailing kindness and devotion to  
their men folk during the war, and  
assure them of our deep and lasting  
gratitude.

Every sailor and soldier in the Is-  
land will, I feel certain, echo my  
sentiments and breathe an earnest  
"God bless the women."

I understand that your Committee  
have at their disposal certain funds  
gathered during the war, which funds  
are to be devoted, if I am rightly in-  
formed, to the alleviating of distress  
among the dependents of the War  
Veterans. That there will be a great  
deal of such distress, particularly in  
years to come, is I fear to be expect-  
ed, and with this in view I should  
like—with your kind permission—to  
suggest that the funds the W. P. A.  
have now in hand be set aside, and  
that the revenue derived from them  
be applied to the relief of deserving  
cases?

Should you deem it advisable, it

THE WONDER  
TALKING MACHINE.

Proclaimed by experts to be the  
most perfect little Machine known  
to Phonograph art. This Phono-  
graph is the smallest, neatest look-  
ing and most compact Talking  
Machine on the market. The case  
is of metal, with nickel trimmings;  
weigh only six pounds. Plays lit-  
tle wonder records. Price, duty  
and postage paid to pay part of  
Newfoundland only \$12.00 special  
offer. We will include three re-  
cords free with every order re-  
ceived during February. Addition-  
al records only 15 cents each. Next  
shipment will be dearer. Order  
now.

# BRILLIANT MINISTER VICTIM OF INFLUENZA

Rev. Dudley B. Ashford, Noted Preacher and Lecturer, Well Known on Three Continents, Was Ordered to Give Up Work.

Reverend Dudley B. Ashford is an extraordinary man. Although still on the sunny side of forty, he has crowded more service to humanity into a few years than most men accomplish in a life-time.

Soon after his graduation from Harley College, London, England, he was ordained minister at the famous New Court Congregational Church, London. A short time thereafter he was selected to present the cause of Congo Reform and African Missions before the people of Norway, and toured that land with such success that he was greeted by enormous crowds at every meeting.

In 1908, under the auspices of the Colonial Missionary Society, he was years labored as a missionary among the Maoris, where his experiences were novel and thrilling.

In 1906 he returned to England and served for three years at Wood Street Congregational Church, Cardiff, South Wales, the biggest Congregational church in the British Empire. It was while here that he fell one of the early victims of the great 1918 "flu" epidemic, an attack from which he had not fully recovered when he accepted a call to the Queen's Road Congregational Church, St. John's, Newfoundland, where his forceful preaching soon attracted record congregations.

The strain of this work upon his undermined constitution proved too severe and he suffered a nervous breakdown, from which now, however, he has completely recovered. Moved by a desire to serve his fellow men he has recently written a letter that tells how he was restored to health and strength.

## Moved by Gratitude.

This letter, addressed to The Tanlac Co., Atlanta, Ga., is an eloquent expression of gratitude and is as follows:

"Gentlemen: Your medicine, known as 'Tanlac,' has been such an inestimable blessing to me, that I feel constrained to write and tell you so. In October, 1918, while a minister of the Wood Street Congregational Church, Cardiff, South Wales, I had a severe attack of the Spanish influenza, from the effects of which I never fully recovered. I lost twenty-eight pounds in weight and was unable to recover my usual energy.

"Then, in February, 1919, I became the minister of the Queen's Road Congregational Church at St. John's, Newfoundland. My ministry was attended with great success, but the strain proved too great for me and I had a serious breakdown. My nerves seemed to go all to pieces and my digestion became so deranged that I could eat scarcely anything. My heart gave me a lot of trouble; it was an effort to walk upstairs and at night I used

Rev. Dudley B. Ashford, Noted Preacher, Lecturer and Missionary.

to lie awake in continual dread lest my heart should stop beating altogether.

"Then, as a result of exposure one winter's night in a small boat, while in the execution of my duties, I was seized with violent pains in the right shoulder and arm, which nearly drove me to distraction. I consulted doctors and specialists and underwent massage and electrical treatment, without getting much relief. I was ordered to give up all preaching and public work for at least three months, and I began to fear that my health was permanently affected.

## He Had Been Skeptical.

"I had always been rather skeptical of the testimonials concerning the merits of any medicine, but one day I read the statement of a man whose symptoms seemed to be identical with my own, and his praise of Tanlac rang so true I decided to give it a trial myself. I bought a bottle and its effect was almost immediate. My nervous condition began to disappear and I began to get sleep at night. My appetite so increased that I could scarcely satisfy it, and I found myself putting on weight rapidly. By the time I had taken the fourth bottle, the pains in my arm and shoulder disappeared and I am feeling better today than for a long time past.

"I feel that I should be guilty of base ingratitude if I did not write and tell you what a boon Tanlac has been to me, and I give you this unsolicited testimonial to you as you may think best, in the hope that others may find in your wonderful medicine the means to restored health and strength."

Tanlac is sold in St. John's by M. Connors, and by the leading druggists in every town throughout the country.

IF THE BRAND OF FLOUR YOU HAD LAST FALL DID NOT ENTIRELY PLEASE YOU--PERMIT US TO RECOMMEND NEWFOUNDLAND'S BEST

# WINDSOR PATENT

## OBITUARY

### MISS BLANCHE CONDON.

Miss Blanche Condon, daughter of the late Samuel and Margaret Condon, passed away at her residence City Terrace on Tuesday night, after a very brief illness. Miss Condon was widely known and a general favorite in the city, and her passing will be learned with deep regret. Two brothers, Robert and Michael, and one sister, reside in the city, and one sister in England. Interment took place yesterday afternoon at Belvedere Cemetery, the funeral being largely attended.

### BERTHA FAOUR.

The sympathy of the many who know him will go out to Mr. Simon Faour in the death of his winsome little daughter, Bertha, aged 6, which sad event occurred after a short illness on Wednesday. Mr. Faour has been in Boston for some time past on business, and the news of his little one's passing flashed over the wires must have been a severe blow to him. Her mother predeceased the child by a few years.

## C.L.B. Hockey

The fifth League game of Hockey was run off last night between A Co. and F Co. The game was won by A Co., the score being 5 to 1. The lineup was:

A. Co.	F. Co.
E. Hooley	T. Rees
Goal	
H. Randall	B. Colton
Defence	
D. Ellis	H. Bishop
Defence	
W. Field	E. Ewing
Centre	
F. Stone	E. Best
Right wing	
H. Hayward	H. Hooley
Left wing	

Ellis, Randall and Field showed up well for A Co. and Hooley saved some splendid shots, while F Co. put up a good exhibition. The game was refereed by Lieut. Wm. Motty.

## First Sealers Arrive

A special train with about 200 sealers from parts of Conception and Trinity Bays, arrived here at 12:30 a.m. to-day. The motor boat A. F. Goodridge arrived here yesterday evening with 23 men for the seal fishery from the Southern shore, and she also brought 2 women passengers. She met a deal of slob ice, and was three hours trying to get out of Ferryland. She brought 800 qtls. codfish as freight.

## LOCAL ITEMS

A woman patient at the General Hospital was found to be suffering from influenza yesterday and was at once removed to the Fever Hospital.

Yesterday a message was received from Cape Race saying that the schr. Huntley, owned by Tessier & Co., had been reported by the s.s. Canadian Voyageur by wireless in lat. 43.50 N., long. 50.20 W. The vessel is bound to this port from Europe.

Another meeting of the men of St. Patrick's Parish will be held after last mass Sunday in Holy Cross Schools, when the first collection will be taken up for the presentation to Rev. H. Renouf.

## PILES

Do not suffer another day with itching, bleeding, or protruding Piles. No surgical operation required.

The funeral of the late Mother Mary Aloysius Caulfield of St. Patrick's Presentation Convent took place today after the celebration of a Solemn High Mass of Requiem. Many of the clergy of St. Patrick's as well as the Cathedral attended and interment was in the burial plot in the cemetery near the Convent devoted to deceased religious.

Sgt. J. J. Fitzgerald was the first at the scene of the Saxon fire Wednesday afternoon, and hearing that there was a girl in the upper flat or Capt. Enon's premises, then filled with smoke, he rushed into the building and up to the upper flat. The smoke was dense, but no girl was there, though he found a small pet dog almost overcome. He brought the little animal out, when it recovered, but strange to say, it again ran into the building and was smothered with the smoke which filled it.

## To Repurchase Ventures

We hear that within the past couple of months an effort has been made to purchase from the authorities of Russia who hold them, one of the 'Ventures,' said to be the Bellaventure. Had she been secured she would have been fitted out for the seal fishery in 1921. We are further informed that negotiations have been opened between certain parties here, and the Russian Government to secure most, if not all of the ships. It is recognized that the depletion of our sealing fleet since 1914 has meant the rapid propagation of the seal herds, which were becoming thinned out, and that in future there will be plenty of work each spring for this type of ship, if they can be repurchased.

## PERSONAL

Mr. N. Powell of Victoria is in the city and a guest at the Crosbie.

Hon. A. W. Mews, Editor of this paper, who has been indisposed for some days, is, we are glad to state, much improved, and hopes to be out again in a day or so.

Mr. Patrick Howlett, Government Inspector of O.H.s. will leave here by the Prospero this afternoon on an inspection tour up West, and will be gone several weeks.

We regret to learn that Mr. A. Targett, M.H.A., is confined to his home at Hant's Hr., T.B., suffering from a severe cold and other complications. Mr. Targett's many friends hope that he will soon regain his former health.

ADVERTISE IN THE ADVOCATE

## WEDDING BELLS

### BOWERS-MOXY.

A very pretty wedding took place at Nipper's Hr. on Wednesday, January 14th, when Mr. Daniel Moxey of LeScie, led to the Altar Miss Mable Susan Bowers of Nipper's Hr.

The ceremony took place in the Methodist church, and was performed by the Rev. G. E. Elliott. The bride looked charming in a dress of pale blue silk, with georgette crepe and beads, while a bridal veil and a wreath of orange blossoms completed the attire. She had as bridesmaids: Miss Susan Starks, Miss Eliza Bowers, Miss Martha Bowers, (cousin of the bride) and Miss Taylor, (Methodist Teacher), while the groom was attended by Mr. Wilson Middleton, Mr. Dorman Bowers (both cousins of the bride) Mr. H. Noble, and Mr. Obidiah Starks. At the conclusion of the ceremony the wedding march was played by Miss Ida Noble, and the bridal party returned to the home of the bride, where a very nice tea was partaken of by a large number of guests. The bride was the recipient of many valuable and useful presents, which shows the esteem in which she was held by all her many friends. The happy couple will proceed later to their future home LeScie, where we wish them many happy years of wedded life.

### A GUEST.

## RED CO'S SHIPS

Argyle left Burin 10:30 a.m. yesterday, going west. Clyde leaving St. John's daylight to-morrow for Port Union.

Glencoe no report leaving Port aux Basques. Still there account ice.

Honra at St. John's. Kyle due Port aux Basques to-day. Meigs no report leaving Louisburg. Sagona arrived LeScie 2 a.m. yesterday.

Petrol at St. John's.

## Along The Railway

Early this morning it was pretty frosty across country, and the glass recorded in average of 5 below zero. It became milder this forenoon, with a Southerly wind on the Western section of the railway, and the indications are for rain.

Men are at work to-day continuing the clearing-up of the Bonavista and Bay de Verde branches, which, if the weather remains favorable, will be open for traffic next week.

## Put Into Barbados

We learn to-day that the schr. Admiral Drake, Capt. Yard, put into Barbados in a badly damaged condition, as the result of stormy weather. The vessel loaded here with fish for Gibraltar for orders, and was 30 days out on the voyage. She had to jettison a large portion of her cargo to save the ship, but as far as we can learn, the Captain and crew are well.

## Negotiating For Another Ship

We learn that Capt. Alexander Carter, who went to Canada to get a new ship for the seal fishery, but found that the one selected was not serviceable, is now in treaty with the Canadian Government for another vessel. She is a steamer of the first class, but is frozen in at Quebec. Of course, she cannot be secured to go to the seal fishery this year, but it is possible will be purchased for general freighting purposes the coming summer, and will be fitted out for the seal fishery in 1921. She is a fine staunch vessel, with excellent carrying capacity, and will be an excellent addition to our depleted sealing fleet.

## A Seafaring Life

Mr. Phillip Lewis, only son of Capt. John Lewis, of Holyrood, has decided to take up nautical life, and leaves by the schooner J. W. Miller, bound to Brazil on his maiden voyage. Seaman Lewis is an ex-pupil of St. Bon's College, and later of Dalhousie University. Following the footsteps of his father, the sea has been the attraction, and his many friends will wish him every success.

## Is Seriously Injured

We learn to-day that the young man James Gladstone Crumney, who was brought here from Western Bay in the Ingraham yesterday, is severely hurt. He is an ex-soldier of the 8th Regiment, and was returning from the woods with a horse and slide heavily laden Wednesday, when the slide sheered, toppled over on him. It is thought his back is broken, as both his legs are lifeless, and for hours he was in a semi-conscious condition. He was sent to Hospital immediately on arrival. Another man James Crumney, a relative of this unfortunate chap, was also hurt on the same day, a piece of wood going through his eye. He also suffers from a malignant growth on the tongue, and on coming here on the Ingraham, went to Hospital.

## Hudson Super-Six

In the remote places of the world as well as in the centers of culture you will find more HUDSONS than any other fine automobile.

Its distinction, artistry of line, fineness of detail and comfort have made it the favorite of the elect in every world capital and on every boulevard.

Won't you let us explain to you the special and exclusive features that make it the world's largest selling fine car.

G. G. PHILLIPS,  
Distributor,  
c/o E. Collishaw's Office,  
Phone 507.

## More Horse Races

We learn that there will be another series of races on Quidi Vidi Lake next Wednesday afternoon if weather and ice permits. Several challenges have been issued by some of those defeated last Wednesday. Our friend Mitt Kelly is not satisfied, and believes still that "Finisterre" is able to hold its own with the best in the city.

## Injured Man Here

The D. P. Ingraham, which towed the schr. Bernard B. Conrad to Carboneau, returned last night from Western Bay, at which port she had called to take on board a man named Jas. Crumney, who had been injured about the spine while working in the woods. Immediately on arrival the injured man was conveyed to hospital in the ambulance. At an early hour this morning he was resting quietly.

## March Winds

are responsible for many fires. You may use every precaution to prevent a fire occurring, but can you depend on your neighbors? Fire spreads rapidly in windy weather, and every prudent man will see that his own property is fully protected. A policy with me will keep your mind at rest.

PERCIE JOHNSON,  
The Insurance Man.

(Under the distinguished patronage of His Excellency the Governor).
